Find out how to green your home

Green Open Homes 2023

Character ● Comfort ● Low Carbon

Want to make your home cheaper to run, warmer and more environmentally-friendly? Here's help with cosying up for the winter months ahead.

Be inspired by Muswell Hill Sustainability Group's tours of local energy-efficient homes on the weekends of 30 September/1 October, 7/8 and 14/15 October. Hear how the householders made improvements and pick up ideas for your own home.

Find out how to add comfort and cut energy bills with up-to-date insulation, draughtproofing, heating and renewable energy systems, without sacrificing character and style. Our expert talks in October and November will help you to take the next step in upgrading your home.

Visit our website to book your place.
